Description

We are seeking a Senior Quality Executive to oversee and support quality assurance and quality control activities within a food and beverage manufacturing environment. The successful candidate will be responsible for monitoring production processes, maintaining food safety standards, conducting quality inspections, and supporting continuous improvement initiatives.

Responsibilities

- Manage and support **Quality Control (QC) and Quality Assurance (QA)** activities.
- Monitor production processes to ensure consistent product quality.
- Implement and maintain **GMP, HACCP, and food safety requirements**.
- Conduct inspections of **raw materials, in-process products, and finished products**.
- Maintain accurate quality records, reports, and documentation.
- Conduct internal quality inspections and audits.
- Investigate customer complaints and support appropriate corrective actions.
- Identify quality issues and assist in implementing preventive and corrective measures.
- Support continuous improvement initiatives related to quality and food safety.
- Supervise, guide, and support quality team members.
- Ensure quality procedures and food safety practices are consistently followed.

Qualifications

- Degree or Diploma in Food Science, Food Technology, Chemistry, Microbiology, or a related field.
- 2–4 years of relevant experience in food or beverage manufacturing, or as required by the employer.
- Good knowledge of GMP, HACCP, and food safety management systems.
- Strong communication and interpersonal skills.
- Good leadership and team management skills.
- Good computer literacy.
- Ability to work effectively in a manufacturing environment.
